From the pitch to the club, from the backhand to the aperitivo: Tennis means a 360° approach to the EA7 athlete. Natural and refined fabrics, vintage-look tracktops and sport inspired polos are key elements for this range. Classic tennis colours, clean design and small shield are extremely suitable for an heritage look.

EA7
EMPORIO ARMANI
TRAINING MAN

Vigor7 enhances the concept of compression. The perfect mix between polyester and elastane guarantees a high performance during intense work out sessions like functional training and HIIT (high intensity interval training).

Ergonomic design, tight fit and functional details are key features in these products.

Breathability and speed of drying are other two fundamental properties of Vigor7, both guaranteed by the type of material selected.

Colours, graphics and details tie up with Ventus7 range. Impactful orange fluo graphics and big logo executions make the SS20 offer extremely appealing.

Vigor7 technology is always highlighted by a dedicated logo application.

The ultimate functional technology in EA7 sport active collection, featuring mesh inserts and “body mapping” ventilation areas to deliver extra breathability. Light, breathable and technical fabrics, functional fits, ergonomic cuts and flat stitching are conceived to enhance the athlete’s performance. A new Knitwear enriches the SS20 offer.

Colours, graphics and details tie up with Vigor7 range. Impactful orange fluo graphics and big logo executions make the SS20 offer extremely appealing.

SS20 Ventus7 offer also includes dedicated packages for running (Ventus7 top performer) and Soccer.

Natural Ventus7 represents the perfect offer for training activities. It is made up of products with a cotton feeling, suitable for both indoor and outdoor sporting activities.

Every garment is made of a mix of natural cotton fibers and synthetic polyester. The functionality of Natural Ventus7 technology enables the skin to breathe by expelling sweat through the fabric as water vapor, while at the same time giving a feeling of comfort and softness thanks to the natural cotton fibers.

During physical activity it is important to retain the heat produced by our bodies as well as to aerate the bodies in order maintain a body temperature of 37°.

Core Identity is the strongest range from a commercial point of view. Colours and styles are in cross merchandising with the further core offer. The styles are clean, simple with a smart price. Besides the carry over styles, we present a very strong and wide offer in terms of fabric: a new heavy cotton for the a mid-season usage, a new light fleece for the colder countries and a new 100% recycled cotton within EA7 sustainability project.
The colour palette includes both basic and summer specific colours. For those who likes safe colours we keep white, black and navy blue bases also with the double combination with a shiny silver or gold logo.

Core Shield is on of the most important pillar within our core offer. Each garment features our small silver shield, easy to link with other styles in the collection. Styles remain simple and commercial, supported by the carry over offer. Newness of the season is the update of the 100g down jackets with a very impactful branded zip.

PRODUCT CONCEPT:

Simple and clean with small shield

The concept of “brand bold” is perfectly represented in this range. The logo talks the language of a contemporary audience and it is a powerful way to establish our brand. The logo execution makes the difference and our offer includes premium and different logo execution techniques. Big logo is a must have and we present also styles with double logo, small on front and big on back. A new embossed logo pack, the renovation of the trendy tape and a strong Pima Cotton pack make this range extremely impactful. The range is completed with a strong pants attack package: a wide offer of sweatpants in many different colours, fabrics and fittings.
